

Academic Writing Task1

You should spend about 20 minutes on this task.

The following charts show changes in world and national total fertility rates from 1980 to 2015 and the percentage of population by age group in 2015.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Write at least 150 words.

Total fertility rate: number of children born to a woman during her lifetime
